foreword

this third Centers Edition of the GARNET AND BLACK is proudly presented by the students of five University Centers whose activities the volume records. The University Centers, while an integral part of the Carolina Community, have and are developing individual lives of their own. This volume vividly depicts the history of another quite fruitful academic year.

The University Centers System is designed to provide qualified students with the first two years of University training or terminal programs in several fields. Center students, for the most part, would have been found on other college campuses had this program not come into being. Its existence, however, has made it possible for them to begin their higher education in an atmosphere which combines the personal attention of the small college and the resources of the large University.

By the fall of 1965, all the Centers will be housed on permanent campuses provided by the local communities. The Centers are staffed and administered by the University personnel. Since the beginning of the program in 1957, the Centers have played a role of ever-increasing significance in the educational life of South Carolina.

In the development of the Centers System the University has been greatly aided by Higher Education Commissions in each local area. These Commissions have worked long and hard for the Centers. The Commission members for the Centers are:

And where is Mrs. Morton?

There's going to be a party?

I told you popping those bottle caps would be bad for you!

BEAUFORT CENTER STUDENT GOVERNMENT

This year, the student government has focused itself on the first objectives listed under Article 11 of its By-Laws: "to establish, to maintain, and to direct activities and all institutions of the student body in a representative manner." It has concentrated on enlarging the realm of extra-curricular activities for the study body. New activities and social events have been suggested and adopted. Among those activities are the newly formed Newman and Protestant Clubs.

The members of the Student Government have been carefully selected to insure a council of competent leaders who will strive to execute the "institutions of the student body."

BEAUFORT CENTER NEWMAN CLUB

The Newman Club is a Catholic organization in which all students may participate in religious activities. By promoting special drives with a different religious club, the Newmans are part of the communities effort to learn of and understand the responsibilities of our fellow citizens.

MEMBERS: Donna DiSilvestor, Gloria Burns, Annette Petorock, Terry Weiland, Richard Dean, John Diericks, Mike McEachern.

MEMBERS: Lisa Bell, Wanda Saunders, Nelle DeLoach, Owen Hand, Hubert Johnson, Patsy Flowers, Carl Gooding, Fred Mercer, June Londos, Joyce Anderson, Jane Price.

BEAUFORT CENTER PROTESTANT CLUB

A general Protestant Club was formed at Beaufort this year with hopes of establishing a better knowledge of our different Protestant beliefs. The meetings that we have had have proved very fruitful and we foresee a great future for this newly organized club.

BEAUFORT CENTER BASKETBALL

This year has been an encouraging one for us here at Beaufort. Under the appreciated efforts of "Player-Coach" (a position not coveted by many) Jimmy Melvin, we organized a basketball team. Mr. Curtis was unofficially declared "Dean of Basketball" and devoted a great deal of his personal time to travel with us on our out-of-town trips. After the games there were usually "get-togethers" put on by either the opposition or us. These are usually looked forward to with great anticipation, and we feel that better inter-Center relationships are sparked by these small and informal parties.

MEMBERS. *Left to right:* Richard Weiland, Mike McEachern, Susan Bazemore, Pat Kennedy, Rick Dean.

BEAUFORT CENTER TENNIS

Because of the enthusiasm displayed, a tennis team was organized this year with hopes of being able to set up matches next year. We think that Beaufort's athletic teams are just beginning to bud and that the following years will see more varied sports activities.

They are to maintain its international and state membership and to promote programs which are beneficial to the community and the school.
